

**Re: Inmet and Weinschel Join API Technologies**

June 10, 2015

Dear Customer,

On June 8, 2015, API Technologies announced the completion of its acquisition of Aeroflex/Inmet and Aeroflex/Weinschel from Cobham. The businesses will become part of API's RF, Microwave, and Microelectronics global product offering and will be branded as shown below:

Please know we have a formal integration team and detailed plan already in place to ensure uninterrupted delivery of the high-quality products you trust and rely on. I encourage you to interface with the same Inmet and Weinschel contacts that you know. The integration should be seamless to you as a customer. We will, of course, notify you in advance of any changes in how we will support your business with us. Should you have any questions or concerns, please advise us through your existing contacts. Alternatively, we invite you to email [inmet-sales@apitech.com](mailto:inmet-sales@apitech.com) or [weinschel-sales@apitech.com](mailto:weinschel-sales@apitech.com).

You may already be familiar with API Technologies (NASDAQ: ATNY). We are a leading provider of high performance RF, microwave, millimeterwave, power, and security solutions. API has been a high-reliability technology pioneer for over 70 years supporting customers in the global defense, industrial, and commercial markets. Today we have more than 20 worldwide locations, with nearly 2,000 employees, and one of the industry's broadest selections of microwave and microelectronics products. We are excited that the Inmet and Weinschel products are now a part of this growing offering.

We look forward to providing you with our overall suite of microwave and RF subsystems and components, as well as our extensive technology solutions portfolio, in support of your programs and growth.

Thank you for your business. We look forward to working with you.

Best regards,

Bob Tavares
