

## All-Inclusive Live Video Subscription Service

**LiveU 360°** is an all-inclusive subscription-based service package – created and tailored for you, meeting the global need for live broadcasts in a unique one-stop-shop. **LiveU 360°** gives you everything you need to go live and respond faster – with more content, greater reach and compelling high-quality live video experiences.\*

### More adaptive & scalable

Cost-efficient, flexible, and scalable solution with no hidden costs.

### Worry-free

Gives you peace of mind to focus on what you do best – producing great content!

### Best-in-class and future-proof

Ensuring you are on the cutting edge of technology and innovation with the best units and the best connectivity and workflows tools.

### Reliability at its core

Because live only happens once and you need the most robust and reliable solution at your side – LRT™ (LiveU Reliable Transport).

**Flexible subscription program with an all-inclusive monthly payment.**

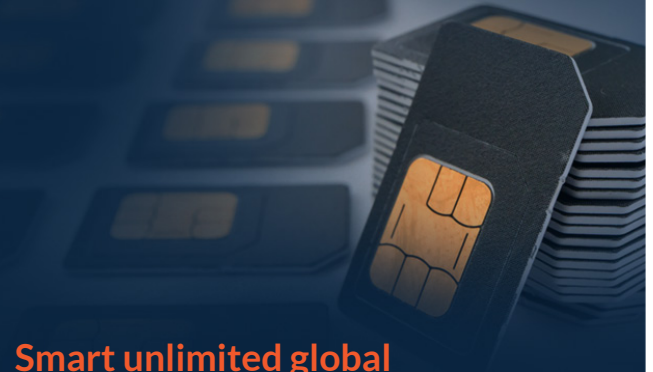

\*Available in the US, Canada, EU countries, UK, Switzerland, Norway and Monaco.

The All-Inclusive Service Includes:

## Industry-leading field units

Includes the LU800 multi-camera, native 5G production-level field unit, LU600 professional portable transmission unit and compact LU300 unit.

## Smart unlimited global connectivity plan

So you don't have to worry about data allowance and coverage fees.

## Output channels/receiving devices

Physical or cloud channels acting as your video hub.

## Workflow connectivity

Seamlessly connect with any other IP cloud-based production platforms or solutions.

## Rich production environment

Complete suite of production tools including IP Pipe, Video Return, Audio Connect and Tally Light.

## Cloud management software

LiveU Central unified management web-based platform and reporting tools.

Including LiveU's new fully managed, highest service level:

## Platinum Service
